## Technical Officer, Standards

### Introduction

The CARICOM Regional Organisation for Standards and Quality (CROSQ) was established in 2002 by a Caribbean Community (CARICOM) treaty as an Intergovernmental Organisation. CROSQ's main objectives are the development and harmonisation of standards, metrology, mutual recognition of accreditation and certification systems and facilitation of the achievement of international competitiveness of regional goods and services produced and provided in the Community. Since the inception of CROSQ, the focus has shifted over the years from regional standards development and standards harmonization throughout the region to the development of the basic regional quality infrastructure architecture and equivalence.

### General Functions

Primarily responsible for the technical work of CROSQ in regional standards development, harmonisation and implementation. Facilitates the development and training associated with needed Standards infrastructure.

### Specific Functions

1. Communicating with Member States and with industry to arrive at consensus on technical specifications.
2. Providing technical support to the Technical Management Committee (TMC), its Regional Technical Committees (RTCs), Editorial Committee and all CROSQ projects.
3. Monitoring the implementation of CARICOM Standards by Member States.
4. Arranging for the dissemination and promulgating of regional standards.
5. Monitoring and evaluating developments in standardisation (e.g. new test methods, test requirements ,) and reporting findings on the implication of such developments to the Executive Secretary and other parties who may be affected.
6. Presenting and representing CROSQ initiatives and views to industry groups and Member States.
7. Presenting and representing CROSQ initiatives and views to industry groups and Member States.
8. Supporting recommendations for submission to the COTED, including compulsory standards for approval.
9. Keeping abreast of regional, national and international standards.
10. Preparing technical reports and other related documentation.
11. Preparing and submitting monthly progress reports to the Executive Secretary in respect of the activities assigned and the status of those work assignments.
12. Assuring alignment and complementarity with CROSQ's strategy and activities of other projects in the corresponding technical area.
13. Working collaboratively to support the Technical Team and create alignment with other technical areas and interventions.
14. Performing such other reasonable duties as may be assigned by the CEO, CROSQ.
